

Barclays Center

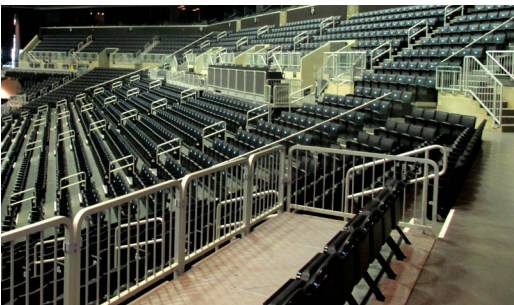

Basketball Arena

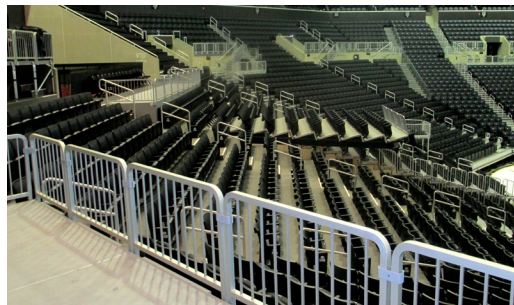

Project: Barclays Center
Architect: AECOM
Completion: November 2012

Location: Brooklyn, NY
Contractor: Hunt Construction

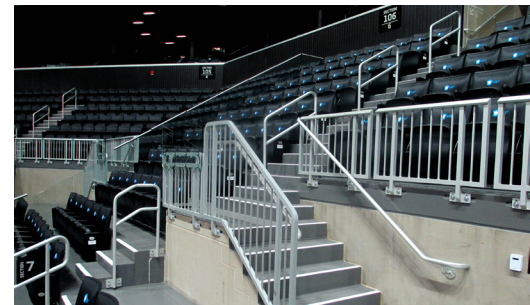

Scope: Barclays Center is a multi-purpose indoor arena. It is a prominent venue known for hosting various sports events, concerts, and entertainment shows. Inside, the arena offers state-of-the-art facilities, premium seating options, and a capacity that can be adjusted to accommodate different types of events. Barclays Center has gained recognition for its role in revitalizing the surrounding area of Brooklyn and contributing to the borough's cultural scene. Working alongside Hunt Construction Group and Architect AECOM in a design assist capacity, Sightline provided 25,000 linear feet of ornamental railing including; classic picket railing, aisle railing, perforated metal railing and Track Rail™ glass railing among others. Custom perforated aluminum panels were created and used for walls and railing infills.

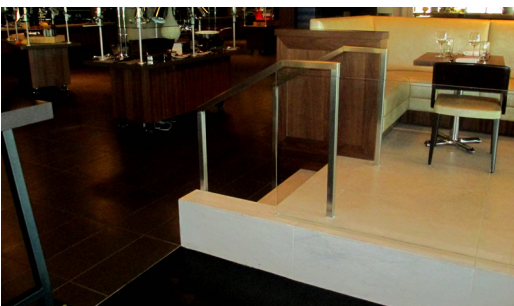

Classic aluminum picket railing surrounding ADA seating areas.

Side mounted aluminum picket railing allows for safety with unobstructed sightlines.

Side mounted picket railing with aluminum handrail on stairs.

Stainless steel handrail with Track Rail glass railing.

Custom railing system with aluminum perforated panel infills.

Aluminum perforated wall panels add a unique flare to the stairs.

Custom post supported drink rails provide a perfect place for guests to casually converse.

Custom railing system with aluminum perforated panel infills.

GripRail™ aisle railing throughout arena fan seating areas.
