KSU Football Complex
Football Stadium

Project: KSU   **Location:** Manhattan, KS

Architect: Populous   **Contractor:** Mortenson/GE Johnson JV

Partners: Cardinal Glass   **Completion:** August 2018

Scope: Kansas State completed both the Vanier football complex, and North end zone expansion utilizing custom ornamental railing. The Vanier complex showcases Base shoe glass railing, aluminum handrail and steel guardrail. The football stadium expansion utilized aluminum Classic picket style railing, custom mesh drink rail, glass base shoe railing and custom glass gates. Since 1968 Bill Snyder Family Stadium has served as a home away from home for generations of Kansas State University fans. Following a recent $52 million renovation, the stadium is attracting new generations of Wildcats fans with amenities that have revolutionized the gameday experience. The stadium's south concourse has been completely transformed into The Shamrock Zone, where fans can enjoy permanent concessions, video boards, additional restrooms and a new 13,500-square-foot club space complete with a kitchen, lounge area and plenty of seating and tables to enjoy food, drinks and friends.

Custom steel guardrail lining entrance to facility.

Custom steel picket style guardrail.

Base Shoe glass railing with aluminum handrails.

Base Shoe balcony glass railing in 4-story atrium.

Player entrance from locker room to player tunnel with aluminum handrail.
