

Project: Alabama Center for the Arts
Customer: Alabama Center for the Arts

Location: Decatur, AL
Completion: January 2016

Scope: The Alabama Center for the Arts is a hub for active, engaged creativity and learning in an inspiring, vibrant and supportive environment. Representing a dynamic partnership between Calhoun Community College, Athens State University and the City of Decatur, the Center is a focal point for promoting education and engagement in the fine and performing arts through professional faculty, quality programs and state-of-the-art facilities, including a beautifully customized, seven-tier seating riser from Sightline Commercial Solutions. The modular system can be styled in four different configurations to accommodate a wide variety of performances, events and audiences with components that are easy to maneuver for quick changes and storage. LED stair lighting and guardrails allow patrons to properly see exit routes and guide them safely to and from their seats.

We **elevate places** where experiences happen by providing **innovative** engineering, fabrication, and installation solutions to the **most complex challenges**. Discover our **unconventional** approach.
