

**Project:** NRG Stadium  
**Completion:** April 2021

**Location:** Houston, TX

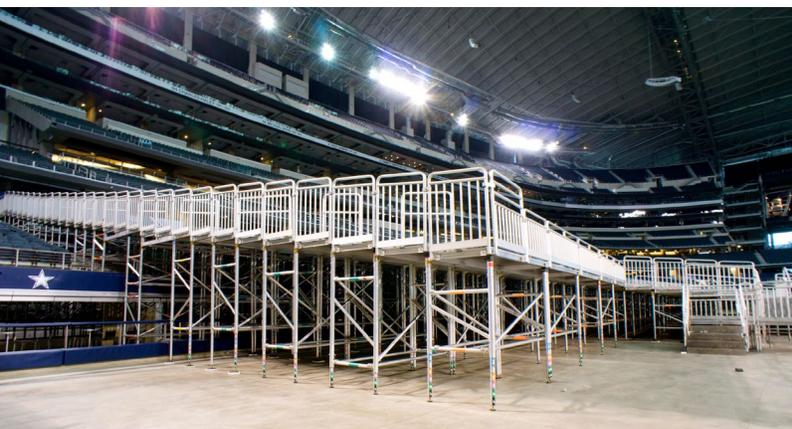

**Scope:** The NCAA Men's Final Four Tournament is one of the biggest events in collegiate sports. For more than a decade, Sightline has been a go-to partner for transforming athletic venues to host this high-profile tournament. More than 6,000 SC90® platforms serve as a foundation for seating risers that add 20,000+ temporary seats to stadiums. The custom-designed system leaves no doubt that fans will have an exceptional view of the action regardless of where they are seated. Additionally, competing teams play on a court that was raised more than two feet thanks to Sightline Commercial Solution's innovative staging solutions. NRG Stadium has hosted several NCAA Final Four events. This incredible venue is transformed from a large-scale football stadium to an intimate basketball arena providing fans unimagined views of the action with an array of Sightline Commercial Solutions' products including; SC90 Platforms, SC9600 support structure, IBC guardrail, aisle railing, step units and Relia spanner beams. The system allows for flexibility to navigate the varying concrete elevations, field walls and sideline suites.

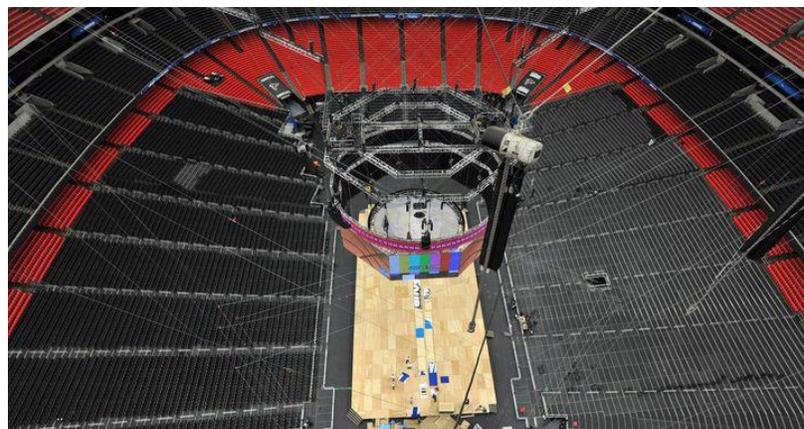

More than 6,000 SC90® platforms serve as a foundation for seating risers that add 20,000+ temporary seats to the stadium.

Thousands of temporary seating added for the NCAA Men's Final Four Tournament.

Sightline Commercial Solutions designed a large seating riser system.

Custom-designed system provides fans with an exceptional view of the game.
