The Flex Suite way – Tailored to your Venue

- 1) Identify your space** – Whether adding sideline seating for an up-close experience or repurposing an underutilized space, the width/height/length of Flex Suite can be designed to meet your needs. Our Experts are here to help.
- 2) Select your Railings** – From our popular drink rail and cable rail to custom perforated metal, glass, mesh or composite infill panels. Sightline can create a simplistic or ornate rail style for your suite. Endless color options available to match venue architecture, branding or team colors.
- 3) Select your Seating** – Abundant chair options including premium folding chairs, lounge seating, fixed tip-up chairs, mesh back swivel seats and stools. Sightline offers all-weather seating solutions with numerous color and fabric options.
- 4) Incorporate Branding or Advertising:** Side closure panels, railing infill, seat backs and drink rail surface provide opportunities for corporate branding, advertising space and team logos. Closure panels, railing infill and zip-in seat panels can be customized and replaced as venue needs and sponsorships change.
- 5) Select Accessories:** Sightline offers pub tables, suite stations with integrated fridges and storage, LED monitors, USB and electrical outlets, step units, overhead canopies and gates.
