

SC100 Folding Bridge Frame

Understructure

The SC100 Folding Bridge Frame, also referred to as a C-frame, is a functional frame that allows bridging between platforms, saving valuable setup time. The frame, which is available in fixed and adjustable heights, folds flat and is self-contained. Custom sizes are available and allow you to use the SC100 with any Sightline Commercial Solutions Platforms.

Advantages

"Bridge" platforms front to back and side to side, resulting in fewer supports for fast setup and strike.

Locator nodes lock into place on each column and automatically align platforms and no need for readjustments. Setup easily by two people with no special tools.

For use with any Sightline Commercial Solutions Platforms.
