

Project: Nathan Burton Magic Show
Customer: Nathan Burton Magic Show

Location: Las Vegas, NV
Completion: November 2023

Scope: In the summer of 2023, Sightline Commercial Solutions was tapped for a unique project: a direct-to-customer order for the “Nathan Burton Magic Show” – a boutique act on the Las Vegas Strip. To expand seating capacity while preserving the show’s intimate atmosphere, Sightline designed, fabricated and installed a custom 16-row seating riser. Made with Sightline’s SC-90 platforms (three per row), the system accommodates 160 audience members. Gold-plated guardrail frames the riser, which is flanked by mirrored walls. This combination of metallic design elements creates an ornate, glitzy setting with classic Vegas flair. Additional features include enclosed riser panels between rows, side and rear railing, and tall aluminum panels along the back. Custom-fabricated stairs provide an elegant and efficient ingress and egress for patrons. Leveraging our full-service, turnkey capabilities, Sightline delivered a custom solution that seamlessly blends functionality and luxury. From detailed submittals and sales drawings to fabrication and installation, Sightline collaborated closely with the show’s production team to bring this project to life. The result is a refined seating experience that boosts audience engagement while maintaining the theatrical magic that defines the Nathan Burton Magic Show as a Las Vegas Strip staple.

We elevate places where experiences happen by providing innovative engineering, fabrication, and installation solutions to the most complex challenges. Discover our unconventional approach.
