

Standing Rail™

Custom Railing System

The Standing Rail™ system utilizes a metal frame with top rail, and bottom kick rail, creating a space for supporters to stand during match day. This versatile system can be configured to accommodate a drink rail should you prefer more of a social gathering area. With multiple materials, finishes and mounting options, the Standing Rail™ system is sure to fit your intended design. If a seating option is desired, take a look at our Seating Rail™ system.
